

Iteration 3 Scores

		SSS
Demo grade		77
Iteration 3 - Design Document		87
Iteration3 - Code		75
Iteration3 - Testing		75
Iteration 3 - Comments		Have not delivered all requirements proposed in the original project description. The backend is very minimal compared to the default project. Most of the front end content is static. No automated tests were provided. Design Document: Expanded the test plan and revised UI Design sections. However, didn't improve section 3.
Progress Report		yes
sign-up		No
sign-in		No
third-party library for signin		No
instructor page design		Their project is much more simple compared to the standard term project.
edit instructor info		
add course		
list of TA applications		
assign TA		
usability of instructor page		
student page design		
edit student info		

Demo Notes - User Interface

view courses that need TAs		
apply for TAs		
view courses that student TA for		
usability of student page		
Heroku deployment		No
Database Schema		No logging in, only had a user and a post table. Essentially smiles.
How they maintain TA assignments		N/A
How they maintain TA applications		N/A
Are all routes appropriate		No
